SECTION OFFICER

ANNEXURE - I

Statement showing the Article of Charges against Sri K.Satyaprakash, the then DEE, PR, Paderu, presently retired from service on 30.06.2011 on superannuation

CHARGE:

that Sri K. Satyaprakash, the then DEE, PR, Paderu presently retired from service on 30.06.2011 on superannuation has committed certain irregularities/misappropriation of Government Funds took place in execution of works and office transactions in PR division, Paderu , as he has 1) allowed substandard GSB work which is liable for rejection (Rs.8.12 lakhs).

2) Check measured the item of camber correction even though the same was not executed and not approved in the recast estimate.

3) Allowed gravel to be utilized as blindage instead of screening without any approval from the competent authority.

4) Allowed payment for extra widths than executed on field in case of earth work formation.

BASIS:

The V&E officials have conducted enquiry which consists of two parts i.e. (a) execution of road work ZP Road to Paradanipattu to Aradigudem KM 5/8 to KM 20/0 and (b) irregularities in division office transactions and reported that

1. the recorded measurements of earth work were found to be on higher side than the observed measurements in KM 11 & KM 14, it is established that the earth work quantities were boosted up. The pre-levels/final levels were not check measured by the Executive Engineer and Superintendent Engineer, inspite of specific instructions of the Chief Engineer, (PR) while approving the 3rd recast estimate.

2. The item of camber correction was not virtually executed. The measurements for camber correction and GSB were recorded on 07.12.07 (vide P 91 of MB 120/A/PR) and 15.02.08 (vide P 3/142/A/PR) respectively i.e. with a gap of 2 months, but no such separate layers were observed anywhere in the entire stretch.

3. In case of GSB, the executed work did not satisfy the specification as the CBR value is only 8.5% (less than 15%), plasticity index around 25% (>6%) and the densities range from 69% to 88% (KM 11 to KM 12) as against required 98%. Not only this, the thickness in KM 16/0 to KM 19/0 was observed to be deficient by more than 20%. Hence, this stretch shall be rejected. (Value Rs.6.09 lakhs). Similarly the stretch from KM 11/0 to KM 12/0 where densities are less also shall be rejected (Rs.2.03 lakhs). The recovery towards deficiency in KM 19/0 to 20/0 works out Rs.1,14,447/- (recovery calculations annexed as Annexure-AXI)

P.T.O.

4. An amount of Rs.2,03,550/- shall be recovered for short thickness and Rs.1,19,602/- for deficit weight in WBM Gr II HBG layer. The field officers have utilized gravel as blindage instead of type 'B' HBG screenings without any approval from the higher authorities. Hence the cost difference between screenings & gravel shall be recovered. (Recovery calculations annexed as Annexure-AXII). The work is entrusted to a section officer whose head quarters is at Athreyapuram, East Godavari District and it is impossible for the section officer to execute work worth Rs.278.50 lakhs departmentally at Paderu located in remote agency area. This has resulted in substandard quality of work.

Therefore, Sri K.Satyaprakash, DEE has failed to discharge his legitimate duties properly and executed substandard work. Thus his action is in violation of APCS (Conduct) Rules, 1964.

Hence the Charge.
